# Case Study

LOCATION OF JOB: Nulla Bridge, Port  
 of Abbot Point, QLD  
 CLIENT: North Queensland Bulk Ports  
 CONTRACT VALUE: \$750,000

Situated along Abbot Point Road and spanning over Saltwater Creek, the Nulla Bridge provides the only land access route to the Port of Abbot Point. The Nulla Bridge Remediation Project required immediate concrete remediation works on the bridge girders and deck joints, in order to preserve the condition of the bridge's superstructure. This involved concrete crack injection and application of a silane protective coating to the deck girders, as well as repair of the expansion joints within the roadway.
